

WEATHER FORECAST - EUROS 2020 UYCA

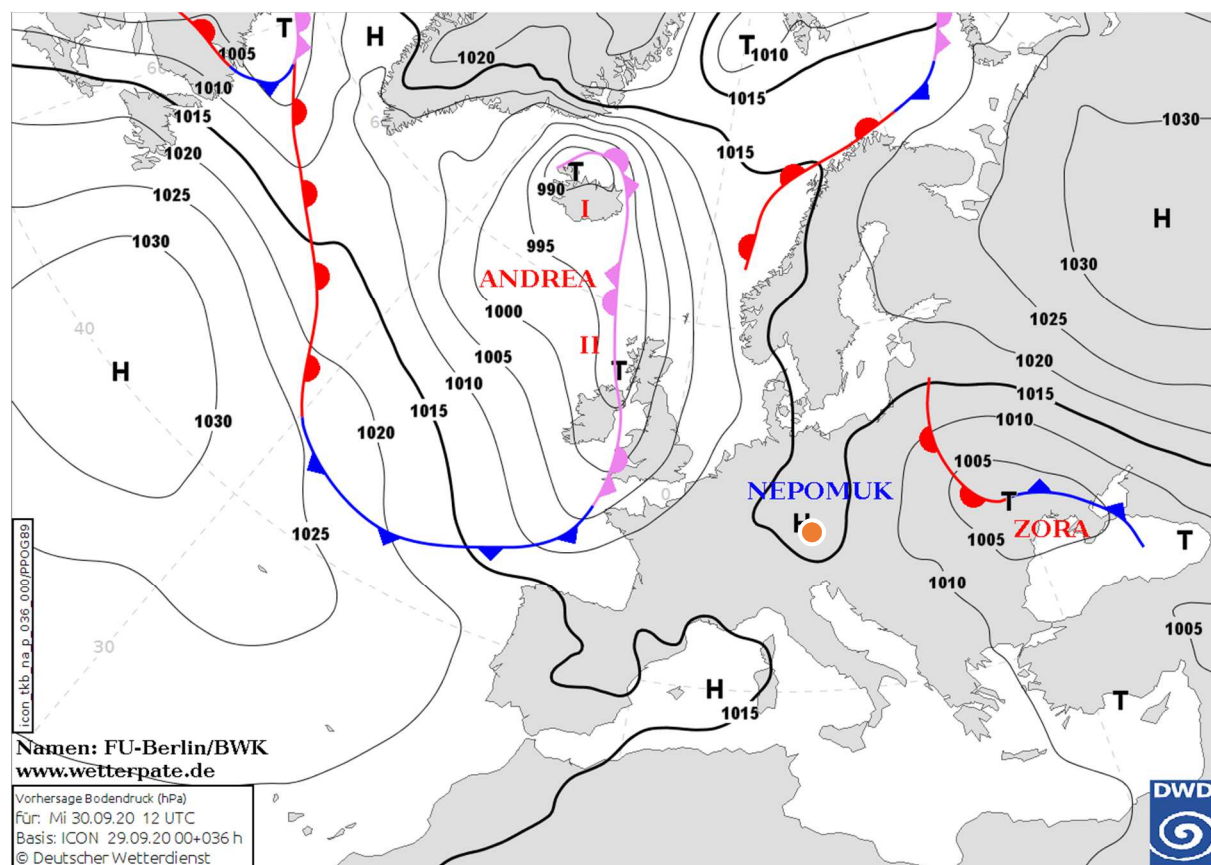

Issue: WED, 30.09.2020, 08:30 CEST

Weather forecast ATTERSEE:

Over Central Europa there are actually poor air pressure differences and therefore weak wind conditions.

In the Attersee regions today a lot of clouds and fog patches, in the beginning some rain or drizzle is possible. During the day mostly dry, in the afternoon scattered clouds with some sunny moments. Until noon it is often calm, in the afternoon weak to moderate currents from Westerly directions.

From Thursday on a foehn weather condition will establish. In the morning it is often foggy and calm. During the day more and more sunshine with temperatures up to +18 degrees. In the afternoons weak to moderate thermic winds, mainly from E-NE are expected. This strongly depends on the sunshine hours and on the strength of the foehn flow on the mountains.

Weather Chart, WED, 30.09.2020, 14:00 CEST

Forecast table:

DAY	Weather		TEMP	PRECIPITATION	WIND
	Symbol		Min/Max	Possibility/ Intensity	Direction/ Knots
